
Our Vision

The Management of PT. Toba Pulp Lestari believes that responsible management of forest against potential environmental risks contributes positively to the business and benefits the employees, consumers, shareholders, communities and other stakeholders. We also believe that by implementing appropriate environmental policies and sustainable management of forest, including biodiversity protection, management of protected flora and fauna, and pollution prevention as responsible environmental management guidelines that will minimise negative environmental impacts, increase socio-economic benefits, and through a continuous improvement programme, the best result is achievable.

Our Commitment

We are:

- ⊛ **Committed to complying with applicable legislation and other environmental related requirements as established by the company;**
- ⊛ **Committed to improving environmental performance on an ongoing basis through the adoption of appropriate measures in preventing pollution, minimising waste and preventing degradation of soil and water quality, and maintaining the skills, capacity and motivation of workers;**
- ⊛ **Committed to managing plantation forests that ensure long-term and sustainable source of raw materials, efficient use of resources and continuous efforts to align the forest management practices with "best practice" or international standards;**
- ⊛ **Committed to carrying out ecosystem-representing landscape conservation, biodiversity protection, and management of protected flora and fauna.**
- ⊛ **Committed to environmental and social responsibility and encourage environmental responsibility amongst partners;**
- ⊛ **Committed to managing environmental issues, occupational health and safety as basic part of the day-to-day business activities;**
- ⊛ **Committed to the principle of local community/indigenous peoples empowerment and actively supports and participates in high-value sustainable development programmes to assist in achieving community self-reliance;**
- ⊛ **Committed to periodic review of the environmental management system to determine effectiveness and ensure that business conditions are in compliance with environmental policies, objectives and targets.**

We will:

- ⊛ **Equip stakeholders with complete information and provide accurate representation and environmental management system and performance shall be verifiable.**
- ⊛ **Provide training for employees and community on environmental policies and educate employees to be environmentally responsible;**
- ⊛ **Ensure that this policy is communicated and understood by all employees, partners and related parties.**
