

Our Visions

The management of PT Toba Pulp Lestari believes that responsible forest management towards potential environmental risks has positive contribution to the business and benefit the employees, consumers, shareholders, community, and other stakeholders. We also believe that by implementing appropriate environmental policies and sustainable forest management, including biodiversity protection, management of protected, rare, endangered, and endemic flora and fauna, and prevent pollution as a guideline for responsible environmental management will minimize the negative impact to the environment, increase the socio-economic benefits, and subsequently through continuous improvement program with that the best results can be achievable

Our Commitments

We:

- ✧ Committed to comply applicable legislations, consider the needs and expectations of stakeholders and other requirements related to environmental aspects
- ✧ Committed to implement environmental protection through repair and efficient use in resources through 3R (Reuse, Reduce, Recycle); protection of biodiversity, habitats, and ecosystems; climate change mitigation; and water and air quality improvement
- ✧ Committed to implement precaution of pollution by using life cycle perspective
- ✧ Committed to manage plantation that guarantee long-term and sustainable raw materials sources, and strive to align forest management practices with "best practices" or international standards
- ✧ Committed to implement conservation of landscapes and ecosystems representation and management of protected, rare, endangered, endemic flora and fauna
- ✧ Committed to environmental and social responsibility and encourage environment responsibility among our partners
- ✧ Committed to manage environmental and occupational health and safety issues as basis part of our daily business activities
- ✧ Committed to the principle of empowering indigenous and local communities and actively support and participate in high economic sustainable development programs to achieve their independence
- ✧ Committed to review periodically our environmental management system to determine effectiveness and ensure that business conditions comply with environmental policies, objectives, and targets

We will:

- ✧ Equip stakeholders with complete information and provide them with accurate representation and verifiable environmental management system performance
- ✧ Provide training for employees and community about environmental policies and educate employees to be responsible with environment
- ✧ Ensure this policy is communicated and understood by all employees, partners, and related parties
