Providing Bore Well Support, TPL Ensures Clean Water Access in Lumban Purba Village

PT Toba Pulp Lestari, Tbk (TPL) Aek Raja Sector has provided support for clean water development and bore well construction in Lumban Purba Village, Dolok Sanggul District, Humbang Hasundutan Regency. The handover of these clean water facilities and the bore well took place on Tuesday, December 3, 2024, in a hopeful moment attended by TPL representatives and village residents.

The construction of these facilities addresses a longstanding issue faced by the residents of Lumban Purba Village regarding the difficulty of accessing clean water. With the presence of this new facility, villagers are expected to enjoy clean water, which will not only improve their quality of life but also have a positive impact on public health.

Santer Siahaan, TPL Aek Raja Sector Public Relations Officer, along with Maria Pasaribu, TPL's Community Development (CD) Officer, personally handed over the support to the community. Santer emphasized that this initiative is part of the company's commitment to achieving the Sustainable Development Goals (SDGs), particularly those focused on public health and well-being.

"We at PT Toba Pulp Lestari are committed to making a positive impact on the communities surrounding our operational areas. This support is not only about fulfilling the need for clean water but also a concrete step in supporting the SDGs, particularly in ensuring healthy lives and well-being for all community groups," said Santer. beneficial for the residents of Lumban Purba Village. This facility is the solution we have long awaited to meet our village's clean water needs," said Marlon with heartfelt gratitude.

As a company operating in Humbang Hasundutan Regency, TPL consistently strives to maintain a harmonious relationship with the local community. The company understands that operational sustainability must go hand in hand with concern for community well-being. Therefore, TPL remains committed to supporting various development programs based on local needs that have a direct impact on society.

With the success of this clean water program, TPL hopes to continue making positive contributions in various fields, fostering synergy with the community, and taking part in building a better future for all.
